Precision Ag Technician

Join our growing operation! We are the leading specialty precision ag business in the area, and are needing to expand our team to better serve the area with service and installation of the equipment we sell. We are seeking a skilled Technician to join our team. The ideal candidate will have experience in general Agriculture, GPS, Hydraulics, Mobile Electrical, and a good general troubleshooting mindset.

This position offers the opportunity to work with a dynamic team in a challenging environment where your skills will be utilized to their fullest potential. If you have a passion for technical work and enjoy problem-solving, we encourage you to apply for this exciting opportunity!

Position Duties

- Install new Autosteer, Planter Control systems, Sprayer control systems, etc. on customers equipment in house, as well as on location for our customers
- Service what we sell- we work hard to make sure our customers are able to keep getting THEIR job done. We travel to customers locations to repair or help setup the products we sell
- Maintain stock part levels, and keep order in our office/shop
- Build Wire harnesses to control the systems we sell. We build a majority of the wire harnesses for custom installations

Skills Needed

- Proficiency in general electrical and hydraulic repair and maintenance
- Ability to fabricate parts for custom one off installations
- Capability to perform heavy lifting tasks as needed
- Ability to follow a wiring or hydraulic schematic to either build or troubleshoot control systems.
- Electrical expertise for mobile control systems, PWM, Canbus, GPS
- Previous experience as a service technician or mechanic is a plus, but for the right candidate, we are willing to train

Job Type: Full-time

Work Location: In person

Compensation: Based on experience and skill level.

Expected hours: 40 – 50 per week, overtime and weekends as needed

Benefits: Health insurance, paid time off, retirement plan

Travel: Some local travel required
